

Now Accepting Applications: 2026-2027 Audiology Externship at a private practice specializing in neuroaudiology

Location: Hearing Health Clinic – Osseo, Minnesota

Are you passionate about the brain-ear connection? Are you ready to gain advanced clinical experience in one of the most exciting and underserved areas of audiology? We invite motivated and curious audiology students to apply for our 2026-2027 Externship at Hearing Health Clinic.

#### About Our Clinic:

Hearing Health Clinic is a private practice that specializes in neuroaudiology, with a strong focus on auditory processing disorders (APD)/hidden hearing loss, concussion-related auditory dysfunction, and brain-based hearing care. We integrate cutting-edge diagnostics—including Functional Hearing Evaluations, Frequency Following Response (FFR) testing, and comprehensive auditory processing evaluations—to provide whole-system, evidence-based care from ear to brain.

#### What You'll Experience:

- Advanced Diagnostic Training in assessing auditory function from ear to brain with suprathreshold measures including SPIN testing, cognitive screening, listening effort, noise tolerance, auditory processing measures and FFR
- Hands-on hearing aid fitting with verification and validation utilizing knowledge from advanced diagnostics for optimal fittings
- Exposure to tinnitus and hyperacusis management, musician hearing conservation, and cognitive hearing health
- Hands-on experience with auditory training and rehabilitation
- Real-world experience in private practice audiology, patient communication, and case coordination
- Mentorship from a Doctor of Audiology with national recognition in neuroaudiology

#### Who We're Looking For:

- Strong clinical skills and a desire to grow in complex diagnostics and patient-centered care
- Excellent interpersonal and communication abilities
- A deep curiosity about the neuroscience of hearing and how the brain processes sound
- Interest in practicing at the top of the audiology scope and being part of a mission-driven team

#### Why Join Us?

This is not your average externship. You'll work alongside a team that believes hearing is not just about the ears—it's about the brain. You'll finish the year prepared to lead in advanced diagnostics, complex case management, and audiology's evolving role in cognitive and neurological care.

#### Application process:

We follow the ACEN externship timeline. Externship start and end dates will be determined by your academic program calendar.

Please submit your cover letter, resume, and 3 letters of recommendation to Heidi Hill, Au.D. at [heidi@hearinghealthmn.com](mailto:heidi@hearinghealthmn.com) by 9/17/2025.
